

# LEARN DATA SCIENCE FREE

LEVEL UP YOUR SKILLS WITH THIS DATA SCIENCE COURSE

## Course Overview

This Data Science Course is designed as the starting point of your Data Science journey. It aims to build a strong foundation in core Data Science concepts while providing learners with hands-on experience.

The course offers comprehensive insights into key Data Science concepts. This uniquely designed program will equip learners with the essential knowledge they need before embarking on their Data Science journey.

## Curriculum

- Data Mindset
- Advanced SQL
- Tableau
- PowerBI
- Tableau
- Python for Data Science
- Statistics for Data Science

- Foundation in Machine Learning
- Supervised Learning - 1
- Supervised Learning - 2
- Unsupervised Learning
- Unsupervised Learning
- Data Engineering
- Gen-AI
